Heras Anti-Climb temporary panels

Fewer accidents and less theft on your site

Advantages include the narrow mesh and therefore protection against climbing over. Fewer accidents and less theft on your site make this fence a very cost-effective investment.

The Heras Anti-climb Panel is an improved anti-climb version of our very first creation (the Original Heras panel). The panels are available as standard or heavy duty and both benefit from Smartweld technology. Heras offer a wide range of temporary fencing to suit all budgets and specifications, whether it be the Standard Anti-climb panel or the Heavy Duty Square Top panel.

- Heavy Duty Square Top
- Close wire spacing to HSG151 guidelines
- All corners benefit from Smartweld technology
- Other colours available
