Safe access for pedestrians.

Safe access for pedestrians.

The Strongwall Barrier is an extremely robust and stable barrier system which comprises of a high density moulded top section and a coloured 18kg base barrier. This system is designed to meet the demands of safe access for pedestrians. The top section can be water filled, which will add a further 15kg of stability making it ideal for windy conditions and the anti-tamper linking system, prevents unauthorised dismantling.

- Robust safety barrier
- Stable barrier system
- Anti-tamper linking system

Pedestrian barriers that complies with Chapter 8 Street Parking Codes of Practice.

Low fences for people and traffic. Partitions for keeping (larger groups of) people at a distance and for guiding traffic. Heras Mobile offers you 1-meter-high mobile fences, barriers and barricades. Please ask our team for other options for the right crowd control. Our system are available in other colours.
