Rolls of tarpaulin for Heras mobile fences in various colours and designs.

Rolls of tarpaulin for mobile fences in different colours and designs.

Heras temporary fencing fitted with a heavy-duty tarpaulin is an easy and effective way to screen (part of) the site from view and hide away the "forbidden site", such as storage locations and backstage facilities. The tarpaulin rolls are 50 metres long and 1.8 metres high. The foil has brass rings in its hemmed edge. This means the heavy duty tarpaulin rolls can be attached to the temporary fencing using cable ties (not included). The heavy-duty tarpaulins provide 92% darkening. The advantage of using rolls is that the space between the fences is also screened off. The heavy-duty tarpaulin rolls are flame-retardant quality.

- Representative
- Complete blinding
- Flame-retardant

Concealing using a stable temporary partition.

If temporary fencing has a banner attached, it may catch extra wind. We therefore always recommend mounting the fences semi-permanently (on posts) or providing them with Heras fence stabilisers. Heras can also take care of the assembly of these solutions for you. Not every Heras fencing is suitable for a banner to be attached to it. Our employees will be happy to advise you.

Fire-resistant mobile fence fabric.

The flame-retardant tarpaulin is fire-retardant and thus contributes significantly to the safety of people on and around the site. The DIN4102 B1 standard consists of 2 parts. DIN4102 is the very strictly-enforced standard that fire brigades and exhibition organisations adhere to. This is seen as the European standard when it comes to the fire safety of, for example, temporary fencing tarpaulins. B1 – Classification basically means the tarpaulin is very difficult to ignite.

The appearance of your site.

The experience of guests, artists and local residents is important to you. By shielding backstage areas properly (storage and private areas), your event area will appear tidy. In addition, your event can be given an extra boost by choosing a tarpaulin in a matching colour. At Heras, tarpaulins are available in multiple colours. In addition, it is also possible to choose a tarpaulin with a print of your choice.
