## The hinge for converting a mobile fence into a gate for semi-permanent set-ups.

### The hinge for converting a Heras mobile fence into a gate for semi-permanent set-ups.

A Heras temporary fencing can be used as a gate by using 2 sling hinges and a Heras temporary fencing wheel. This solution applied to 2 temporary fence elements quickly provides a simple, 7-metre swing gate for freight traffic on the construction site. Close the gate securely with the Heras temporary fencing lock. This hinge has been specially developed for semi-permanent applications.

- Simple Heras temporary fencing gate
- Provide effective access
