Privacy infill to make your Heras hoarding a whole.

Privacy infill to make your Heras hoarding a whole.

The Heras hoarding privacy infill is designed to hide the gap in between the Readyhoard panels, giving a clean, professional looking finish and providing a higher level of privacy and security to site. Passers-by can no longer see in through cracks and crevices, which provides additional security. The hoarding infill can either be galvanized, painted or powder coated so that the strip fits seamlessly into the hoarding of your choice, whether it is 2 or 2.4 m high.
