## For the horizontal transport and storage of all types of Heras temporary fencing

### Universal fence panel stillage for horizontal transport and storage

The horizontal storage makes this rack suitable for all types of 2-metre Heras temporary fencing. Depending on the tube thickness of the temporary fencing, 27 to 30 temporary fencing elements will fit in each frame. Further benefits of this fencing stillage include the greatly reduced time it takes to load and unload stored fence panels, the protection provided, and the reduced risk of injury to staff from handling the fence panels.

- Easy in use
- Stackable
- Universal
