For stable and long-term service

The gate leaves can turn through approx. 180° and can be horizontally adjusted, so that they will always hang straight and turn smoothly. Gate leaves wider than 3 metres have double top rails to eliminate the need of diagonal braces - which would be helpful for intruders who want to climb the gate. The locks are sturdy and it is virtually impossible to force entrance by sabotaging them. It is then impossible to lift the gate out.

- Robust enclosure
- The number 1 safe swing gate
- Single or double swing gates
- Can be opened up to 180°
- Internal drop bolt with lock
- Hinges are adjustable
- Unique shielded safety nut
